GovCom SOLUTIONS

CAPABILITIES STATEMENT
FEDERAL & BUSINESS TECHNOLOGY SERVICES

We fix broken IT systems, modernize what is outdated, and automate the work that drains your people's time.

GovCom Solutions identifies, custom builds, and secures the technology that government and business run on, so your team can stop fighting their tools and get back to work that matters.

WHAT WE DO

Secure the cloud. Insecure or underperforming environments, rebuilt to secure-code and compliance standards.

Move the data. Migrations that land clean, with nothing lost in transit.

Connect the systems. Complex platforms that never talked to each other, aligned so people stop fighting their tools.

Modernize the old. Aging, hard-to-support technology replaced with platforms built to last.

Automate the busywork. AI that absorbs the repetitive tasks, so your team gets back to taking care of people.

Coach the team. Hands-on AI training that turns hesitation into confidence, and frees up real hours.

52 hrs/wk of staff time saved, every single week.

After our AI Advantage training, an operations manager at Northdale Oil rebuilt truck dispatch across three regions. Work that ate a combined 48 to 60 hours a week now takes under eight hours.

PROVEN IMPACT

20% lower licensing cost

8 → 4 week faster development cycle

30% better usability

100% Section 508 pass

Social Security Administration platform modernization

HOW WE WORK

Low risk, phased. We prove the core before scaling, so your budget follows real results.

Secure from day one. Agile and DevSecOps baked in, never bolted on after the fact.

No surprises. Clear impact on cost and timeline before any change, in plain language.

GovCom SOLUTIONS

PAST PERFORMANCE

PROVEN DELIVERY ACROSS FEDERAL & BUSINESS

WHERE WE HAVE DELIVERED

Defense Media Activity (DMA), U.S. Department of War *Federal*

Coordinated backend tech debt to update over 1,000 military websites, modernizing security and improving cloud service and security. Ensured each .mil website held to federal-grade security and accessibility standards.

Social Security Administration *Federal*

Modernized ServiceNow and Pega, then stood up a ServiceNow Center of Excellence to guide planning, build, and training, moving a federal agency off manual process and onto agile, automated delivery to improve service desk ticketing & support.

20% lower licensing cost | **8 to 4 weeks** faster dev cycle | **30%** better usability | **100%** 508 pass rate

AI Advantage for Small Business · *Grand Forks & East GF Chamber of Commerce*

A five-week, hands-on AI program for 13 regional organizations. Every participant walked out with a working AI tool, and the dispatch result above came straight out of this cohort.

+48% jump in AI confidence | **100%** built a working tool | **13 of 13** shared it with their team

Rapid Mobile Application Development · *Honest Elevator & YurUp*

Mobilize your team's workflow with ticketing from the work truck and the job site. Manage calendars, quote approvals and more. Stop the text madness and get back to taking care of customers with custom app development.

50% cheaper than competitors | **4 months** to MVP | **Training** documentation and user support

> *"Just do it. AI is the future and you absolutely need the education. Send your department leads to get it."*
>
> SANDY, OPERATIONS MANAGER · NORTHDALE OIL, INC.

WHY GOVCOM

An agile small business that delivers like a federal prime: CMMC Level 2 and SOC 2 certified, Secret-cleared, backed by an AI Center of Excellence. We carry the compliance weight so you do not have to, and we talk in plain language your whole staff can follow. The result is technology that works, and people who actually use it backed by documentation and continuity.
